Sarah,

Please find attached the original Fire Protection Ordinance adopted by the Town Council on 5-9-1991 and the most recent amendment approved on 5-13-2010. The original intent of the ordinance was to charge businesses that have private fire protection systems such as sprinklers, an annual fee to cover the use of water. Those fire protection lines are not metered and in the event of a fire, we cannot know how much water is used.

Also, our Utility Billing department does allow for customers to do payment arrangements if that will assist you. If you have any further questions, please let me know. Thank you.
